Couldn't I finish her, Dr Troll
The decision has already been made Amen Shita
We gave her anti-ESP injection She will lose with no doubt
I thought she meant more than that Dr Troll
Do you really want to end this here like this?
I overrated it too much
I did find its aggressive nature interesting
But I have no interested over something that is so weak
www.jaimes.com

I expected more but that s not needed anymore now
It wants to k ll itself Prepar ng a grand battle for it s meann gless
S on has no teleport ab lity it ends r ght there
We w ll just watch it d e slowly next to its dead fr end
What a tr val end ng
most ended tr val though

Once you realize there s no lane

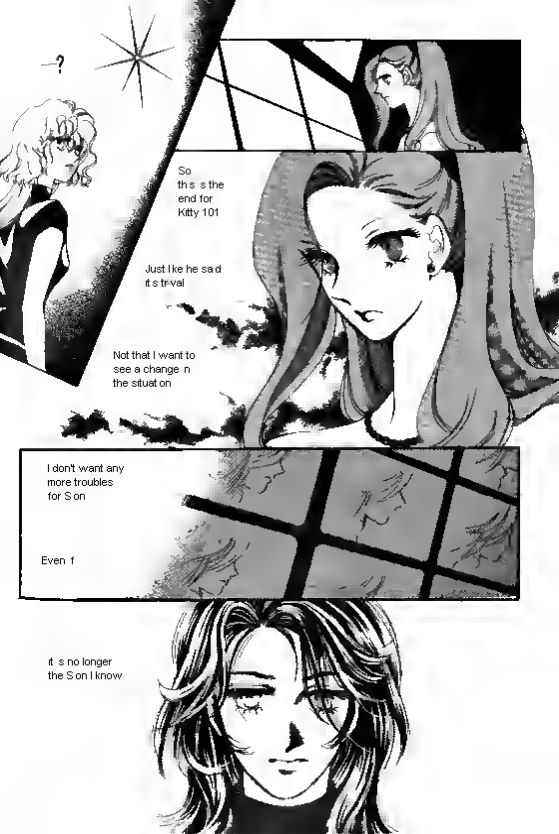
Too bad for you You don't even get to say good bye to Kitty 101

Well there s always another world

Yes because she s like Goddess of destiny ?

Too bad I so wanted to throw her corpse n front of you

If you want there s always a second chance



?
So
ths s the
end for
Kitty 101
Just lke he said
t s tr-val
Not that I want to
see a change n
the stuat on
I don't want any
more troubles
for S on
Even f
t s no longer
the S on I know

www.janimes.com

Sion
She's ... really alive ...
Begin, Sion

That was easy
I didn't even use
full powers

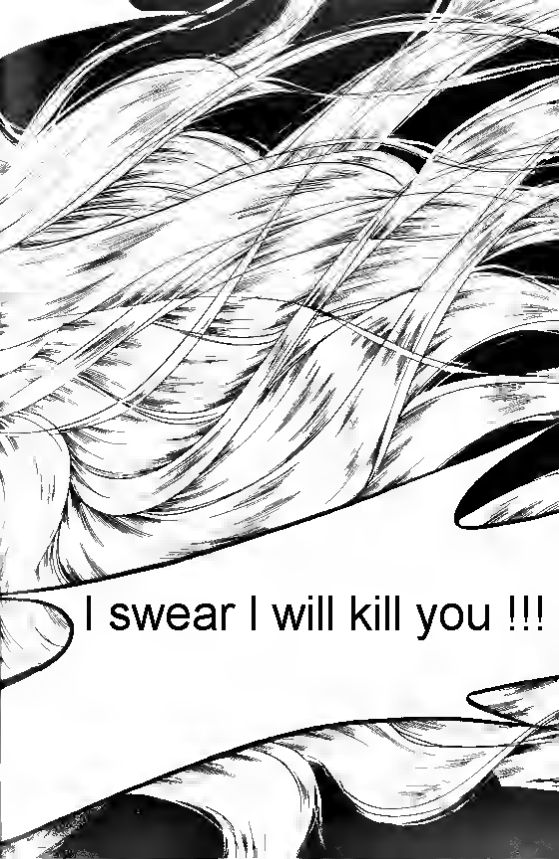
Come on.
Stand up. If you
die too easily
Dr. Troll will be
disappointed.
Yes... right.

Jamjmes
www.jamjmes.com

My messenger of death ...
You
You are a clone r ght
Right Son

You sound weird, Kitty 101.
That shouldn't be your last words.
Yes... So...
Kill...
I will kill...

I will kill you, Troll !!!



I swear I will kill you !!!

Jaimes
www.jaimes.com

What is going on ?
We've confirmed that there was an explosion in the facility But on more details
They haven't announced anything
How about Mars Heaven ?

How can Kitty use enough powers to cause an explos on?
D d you nject the correct drug?
And why sn't the security system tracking it M ssel ?
We are do ng it r ght now
There she s !
Then locate it now ! it couldn't have escaped out of the fac lity
Ah ! She teleported aga n !
Even f you don't look for her she seems to be look ng for you
Don't you th nk she w ll show up n front of you by her own w ll Doctor ?

Yes ndeed
Where !
Troll !
Where are you, Troll !
Show me your disgusting appearance !

I will show you !
Troll !
I will show you what you've done !

www.jaimes.com
Looks like she wants to avoid Sion for now
She's too angered to search and find
Because it needs concentration
Isn't it time for me, Dr. Troll?
You may not have a upper hand when Mars is like that, Amen Shita

But, at this rate, she is coming here sooner or later.
Better take her out out there than in here
Bes des th s i s what I was made for
Doctor
No Amen Shita Th s s not your t me yet
M ssel

Send out Medusa
We are going to measure Kitty 101's power levels
Yes
Doctor admiral Kane Neffe wants situation report and wants to see you
Get them out of the facility
Are you trying to get rid of us ?

Th s s our problem
Your v sit was personal and the adm n strat on has no bus ness over our problem
How about transfer of Mars Heaven ?
That was as long as Mars Heaven does not cause any troubles
Men send these gentlemen out of here

You know this is only your temporary solution. I must assume that there is something happening.
You just wait. I will come back within 3 hours.
As you wish Th s fac lity s not Dr Troll s pr vate land Have you forgotten that already ?
Unless we send out d stress s gnals and ask for help no one from your adm n strat on can enter here
You are go ng to need perm ss on from the world un on and that s go ng to need sol d ev dence

Janimes
www.janimes.com

We have to leave ?
What about Mars ? And why ?
We just have to
We don't now what s happen ng here
We are watch ng here from orbit but only an explos on was conf rmed
No ... the guard was too tight to search around. So, I couldn't search.
So ...
But, at a time like this, I could ...
I bel eve th s m ss on really calls for espers
Isha
Jean

Your teleport ab lity s requ red for th s guerr lla tact cs
You w ll br ng Mars out of here
Th s m ss on w ll be very dangerous
I understand
How about you, Isha ?
Isha ?

Before that tell me !
There is something that you haven't told me about
Kane and Jean, stop fooling me around !
Tell me the truth ! Stop confusing me with words I can't understand. Tell me why.

Hu . . . , Medusa
or should I say
Medusa 2 ...
Clones ....

You were
once dead !

Hacker s still f ne He has no external wounds at least
That was qu ck Ther powers were only that?
None sense
F ne ?

Even clones have basic instinct and fear
He has already lost the battle

Doctor ?
What was the power level just now ?
It was slightly over 10 000 voltage
Considering Hacker s self defense force I assume It was much higher than that
It s hard to believe that she can even stand still after sending out such voltage
Medusa were already killed ?
Yeah
Huhu

www.janines.com

Th s s so called "go ng berserk"
Huhuhu
After all that, now it shows such status ...
If it is not going to obey,
better beat it and tame
Don't you think so, my children
Could I go ...
No send out espers
Members of Hercules f rst

There is no pond
in the world that
cannot be drained.

The scent of blood
I feel like I am going to regain my consciousness fully
I don't want that
Not yet
I-C
INC
Ah....,
how
grateful.

I will leave enough
powers to kill you, Troll !

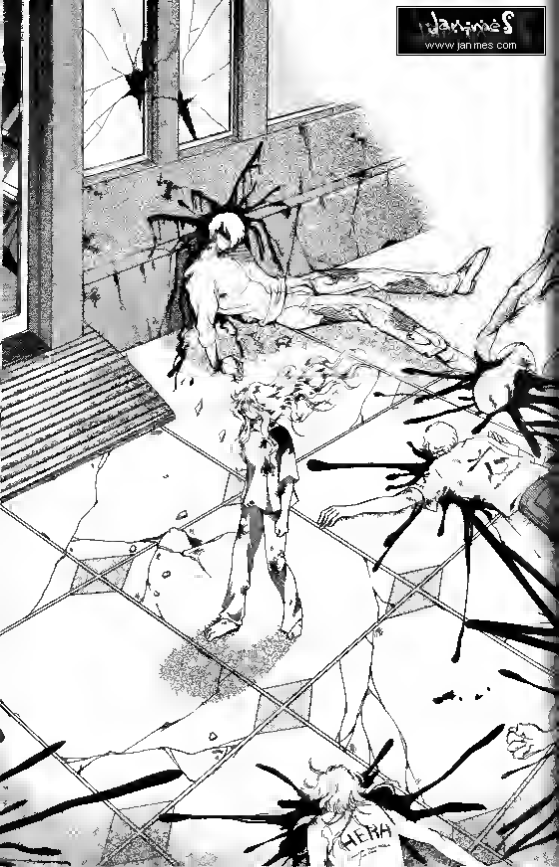
Where should I begin ...
Just tell me the truth.
I can't work right with all the questions in my head.
Mars ... is an artificial human code named Kitty 101.
She is Dr. Troll's creation.
And it seems ... your DNA is a part of her DNA.
"No, no, it could be his business."
"During creation of Kitty 101's DNA, Isha Grcon's DNA was used as well."
What ... ?
www.janimes.com

That ...
No way !
My DNA ?!
When ... ?!
Who ... ?!
Mars and I have only few age d fference
I don't remember mak ng any woman pregnant
Or at least I th nk so
Accord ng to Kane, Dr Troll just took what was n DNA center
It seems he was try ng to mix many DNA to produce a powerful esper
I th nk Mars found out about your DNA be ng n her at the same t me you d d
then
I see
She was shocked too
Is Dr Troll lock ng up Mars now ?

it would appear so
And
And
Yeah that s pretty much it Do you understand what s go ng on now ?
But sn't she a pat ent now ?
Rest of truth when you speak to Mars she w ll tell you
Anyway r ght now we must f nd Mars and get her out of here That s our top pr ority
When Mars emot ons are at peak her powers are extremely dangerous
Phys cal wounds mean noth ng to her

Somewhere n th s facil ty there s Son s clone
That s the b ggest problem
Are you go ng to help me now ?
Yeah
I can't even talk back
what the hell
Son s clone?
who Mars k lled ?
That Son s clone ?
DNA ? Mix ng DNA ?
code name ?
Art f c al human ?
She s
She s
someth ng l ke that ?

I am about to have a panic attack by just listening to that.
What an unlucky girl she s



HERA

Troll ...
Where are you, Troll.
I know you are watching me
Don't waste my t me with useless attempt and come out
Are you a coward who d h de beh nd your espers ?
Troll

Come out, Troll !!!

Kkyyaa ?
What the ?
Wah !
At th s rate the v llage s go ng to be damaged severely
Evacuate everyone
Send them safely out of the Troll v llage
It s amaz ng that It st ll has such powers

Where is Sion ?
Her locat on s close to Mars

Janines
www.janines.com

Looks like she s going to keep avoiding Son
What did Kitty 101 say just now ?
I couldn't hear
I will try the recording
Anyway how s its power level?
buildings were damaged mostly
Her power has been increasing gradually

Her powers are amaz ng
Espers have s de effects by just us ng ther powers once
It just doesn't know its own status
It should be tred psych cally and mentally now
Now
Yes, I am ready
No not you Amen Shita

Missel, you go
Doctor ?!

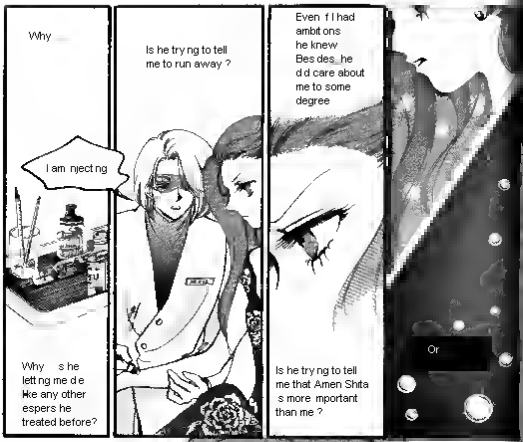
D dn't you hear me M ssel Go out there and f ght Kitty 101
What i s your answer?
Dr Troll we need M ssel here
What s wrong with Missel ? She s a powerful esper
D d you th nk you were an except on Missel Well then
Mart e athough you are not an esper you can do what she does as an off cer

Janines
www.janines.com
Go out there and fight as an esper and come back
I am reminding you now that you are a battle esper as well.
"Come back", you say

Now ...
can you say
"I refuse.",
Missel ?
Aren't you an
excellent esper,
Missel.
Or ...,
can you say,
"I will certainly
be killed.
Therefore,
I am not going."
Or even ...,
"I am not going
to listen to your
none sense, old
man."
Missel...,
can you say
any of those ?
Excellent...,
Really excellent...,
Dr. Troll ...

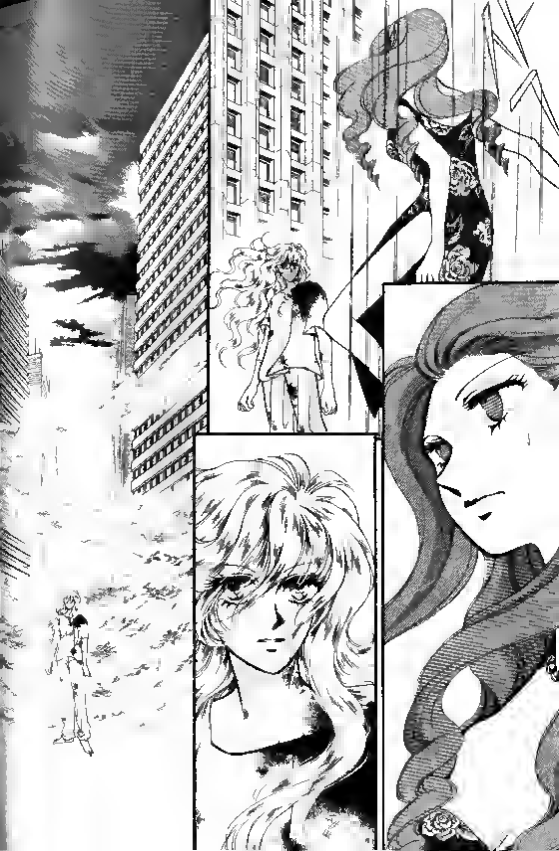
The reason he let go of what I've done with Hercules
Is that what he's telling me now
Yes, Dr. Troll. I Missel will accomplish the mission and return
I am sure you know that I can't back out due to my pride
I guess I have to admire you
Your ability to control people's pride
If I refuse, I will be punished for disobeying
So, there's no choice for me, huh
Shouldn't I go with her?

Venus you ?
You won't be any help
I bel eve you know that better than me
So you do whatever you want
Amen Shita w ll teleport you n front of Kitty 101 Before go ng make sure you nject yourself with DSD
Yes ?
But it s
t hasn't passed exper mental stage
But it does boost your powers
S de effects are better than death Don't you th nk so Missel



Why ...
I am rejecting
Why is he letting me die like any other espers he treated before?
Is he trying to tell me to run away ?
Even if I had ambitions he knew. Besides, he did care about me to some degree
Or
Is he trying to tell me that Amen Shita is more important than me ?

Is that it ?



I really didn't think we'd face each other in a situation like this, Kitty 101.

Troll ?
Looks like you have to go through me Kitty 101

Good bye
M ssel

—?!

You probably
didn't die
But I see you are
indeed a human,
Kitty

No, no, Missel
How could I be a human

끼기

It was just that I d idn't expect you to be powerful
Do you understand ?
The more I use my powers now, the more I feel that I am cleansed.
I want to use my powers.

Until there is none left
You don't look certainly like a human right now...
Mars ... you look empty...

Janimes
www.janimes.com

Why did you come here
Did Troll lose interest in you?
Well ...
I don't think that was it ...
Huhu ..., I certainly thought that I was different from ordinary espers ...
after all ..., the truth is that I am an esper who'd die like this ... like them ...
This is an esper's death
Not a person named Missel's death

Why ... aren't you finishing me ?
You are ... already dying...
I ... don't believe in God.
But there are times I want to believe in God.
I guess this is one of the times...

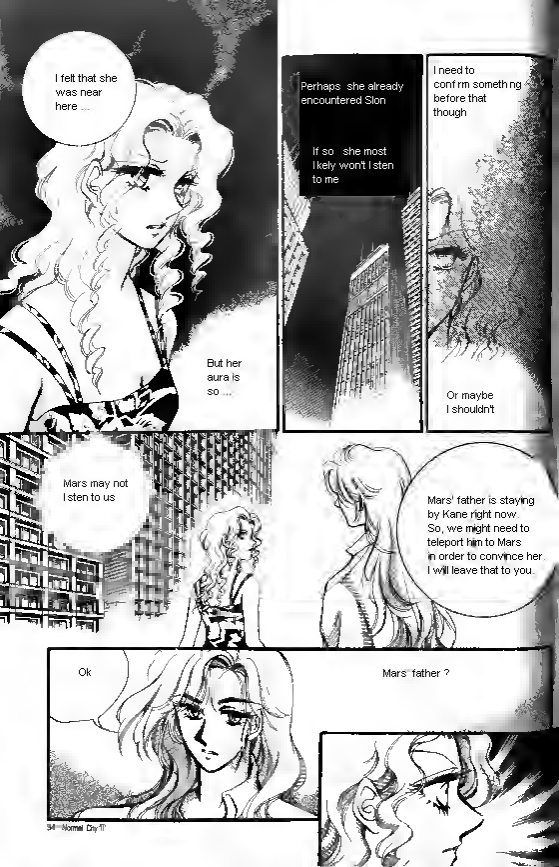
What s with these corpses I don't th nk they d ed acc dently
It's good that people evacuated.
But th s place s too b g to search for two of us
Jean haven't you located Mars yet ?
www.jaimes.com



I felt that she was near here ...
But her aura is so ...
Perhaps she already encountered Sion
If so she most likely won't listen to me
I need to confirm something before that though
Or maybe I shouldn't
Mars may not listen to us
Mars' father is staying by Kane right now. So, we might need to teleport him to Mars in order to convince her. I will leave that to you.
Ok
Mars' father ?

Follow me Isha
She is very close

Nemal City '89

What now ?
How long has it been s nce Mars was awake?
8 hours.
its arm s not fully healed yet
And th s f ghting the ant ESP drug
And for 8 hours
Th s s certa nly a record

Hmm
I wonder how
long it will take
Amen Shita
Yes.
You take Missel's
body to B 2 first
And assist Son
with teleportation
it's not your

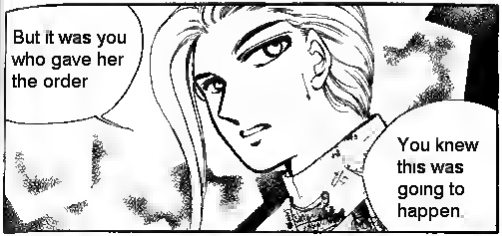
Yes
I am thirsty
Bring me a glass of water
Yes
Can I ask you something?
What is it ?
I thought you cared about Missel I thought that was why you had her as your step daughter Even I could see that you cared about her
Why did you do that to her
Martie
Do you think I killed Missel ?
it was Kitty 101 who did it



But it was you who gave her the order
You knew this was going to happen.

It was M ssel who accepted the order
Do you know the d fference Mart e ?

Whatever order I gave her she accepted It
She had a chance to refuse my order But she d d not Whether she was afra d of pun shment for d sobey ng or afra d of run g her pr de. It was her dec s on
It was her decision and choice even if the order led her to demise
It was her who chose to f ght Kitty 101 even when she knew what was go ng to happen Do you understand the d fference ?

M ssel s capacity was only that
She became weak by fall ng nto her own emot ons
If she d dn't want to she just should have refused my order
Pr de and pun shment for d sobey ng my order shouldn't have been n her m nd
t wasn't M ssel I used to know and cared
I don't know ...
s he saying she should have refused and yet he would have not forgiven her even if she refused ?
www.janimes.com

Or was it simply that he wanted her to refuse ....
By saying she wasn't who she used to be did he mean her changes with Son ?
But still
Mars, let's get out of here.
I said go away !

I am not leaving until I kill Troll !

Isha Green, the admiral is looking for you
Kane...
Isha I know this is going to be hard but I am going to have to ask you to teleport Mars directly to the admin straiton We don't have time to transport her
Mars is fine right ?
She's just hurt badly, right ?
We will do what we can at the admin stration
But right now she is not breathing

Jean

Sion's clone ?
In such a short
period ?
That's ....
That's expected
from Dr. Troll ..
But that's crazy.
I found out
right before it
happened . .
On the other hand,
that means it would
be also possible to
make Mars' clone.

You can come up with such an idea at a time like this ...
But let me just tell you how dangerous it might be,
Why do you think mutants exist in nature?
One plus one is supposed to be two.
But when it doesn't become two, that results a mutant.
There are countless variable values in a single DNA. When one value goes wrong, every other value goes wrong.
If I were you, I would never dare to create her clone.
Mars' DNA was tempered to beyond limitation. You won't be sure what condition her clone will have.
I am sure Dr. Troll would never, either.
If anyone does make a clone off such a DNA, the price will be very cruel.

Is Mars really dead ?
I would have taken the truth if it was an ordinary human But it's Mars I can hardly believe it
Jean!
I can't believe, either ...
In fact, I feel like I know nothing.

Kitty 101 was taken to Kane s camp
Mart e, how long has it been s nce Kitty was awake ?
Yes ...?
About 12 hours, sir
Is that so...
Why does he keep counting time ?
Martie,
Yes

Amen Shita w ll certa nly capture the female
Conf rm Kitty s death tomorrow
Yes
That was a long day
And I am putting you n charge of the Troll v llage as well as Amen Shita and S'on
I am go ng to take some rest

Venus what were you trying to do ?
VWere you
Amen Shita br ng her to the fac lity

I am really no match
But it seems she has no intention to finish me
This is like a cat is playing with a mouse
We lost Kitty because of you
Do you have a grudge against me or is this a hobby of yours ?
Why don't you teleport again?

Jaminés
www.jaminés.com

Because of you, I lost Kitty
I am in a bad mood right now. Consider yourself unlucky
And regret for having a bad friend like her
Hmmph, no way would Kitty be finished by someone like Son
We will fight again
Kitty 101 should only be finished by my own hands. That's how it should be.

Why do you hate Mars ... ?
Is it personal ?
I don't have to tell you.
And you are an esper. You do have the desire to win, don't you ?
Kill or be killed. That's how it is for espers.
I.... have never killed anyone ....
Mars ... , you....

No changes at all
We d d everyth ng we could but no change was detected
There is no brainwave, either. So, there is no other way to put this she is dead, period.
It s been 2 hours s nce her death was declared

I guess Mars Heaven was a human after all
Well, I saw from TV that there have been few cases that people would wake up from death.
If she maanges to wake up from this one, I guess she will be one of the "people".
Ths s not the place to make a joke Bezel

www.janimes.com

What are we go ng to do with the body? it s a very important sample So we should
W , wait, Kane !
Get me membes of Mars-D project !

What s go ng on ?
She was chang ng
Her har was chang ng 2 hours after death
That means she could have been already changing at the time of death.
Originally, when changing begins, it carries extreme pain and sometimes her body malfunctions.
In some cases, she did enter complete pause status.
And, if that was the time when she was attacked,
The damage could have caused her deah-like status.

Although ..
I can't say
that whether
it is
a blessing
or beginning
of her misfortune ...
Perhaps I am not
making any sense
at all. If she took
the damage without
self defense
Anyway
for now, what
we need to do
is speed up her
change
Consider ng that her
current change s slow
I predict that she will
be fully changed after
5 hours
If there s no
sign of life
after that ...
So, 5 hours
So this s how one
feels like to revive

And I cannot beleve why I am feeing Ike th s ether
Why am I feeing so ?
Because we are related ?
Or because I've known her for somet me ?
I don't know I really don't know
I like Gai, but why am I feeling so powerless for her death ?

If I knew th s d happn I should have let Mars enter my dream
Why do I have to care about her so much ?
Ga doesn't appear in my dreams any more
I should have asked for help and f nd Ga so that I can get r d of my chaos

it is slow

But at least,
we have a logical

it will be like how

She will wake up
I am positive
The transformation is almost complete
Yes Mars Don't die yet Mars
Whether you are a case of Frankenstein or not, if this is how your life has to be
Like you said, perhaps it wouldn't be so bad to live until you accept the truth
I do also want to see you embrace and live on

www.fr.jahaines.com

Kitty 101 experienced near death status and survived after transformation.
She is relying on machines to live for now.
This is all we could find out for now.
Hm, as I expected.
I figured its berserk status would shorten its time as a female.
It always brings interesting events...

Even that was expected ?
I thought of end ng it when it turned nto male and become powerless
But t ny m scalcula on changed the resu t
Well wth its power to surv ve it won't be fun to end it that eas ly though
D d he really want to ell Kitty ?
How s that female, Jean, do ng ?
He looks rather
She has been qu et after she njected her wth anti ESP drug
Pleased for lett ng Mars l ve
Well how long w ll t take to come here and rescue its fr end when it s under such a condit on

At least Kane won't bother to ask for my help again
Martie, keep watching Kitty very close. Monitor its status.
He will let you have the info probably.
It must survive. No way am I going to end it like this.

At least not like this...

His obsession toward Kitty is beyond my expectation. He looked rather happy for knowing that she survived
I've been feeling this for a while...
I think his obsession toward her is more of personal matter

Jaimes
www.jaimes.com

Of course, she survives
No way would she die that easily.
You look amazingly fine after what happened, Venus.
No way would my destineted partner die so easily.
Are you joking or are you ser ous ?
Half.

I f nd her fate
but she doesn't
That's fate
Half fate
Fate
Such a fancy
word
In a world where
a person's l fe can
end n a blank of
eyes
What a fancy
word to say
If you loved Mlssel
why d dn't you
propose ?
D d Mssel d slke
you ?

I wasn't afra d of reject on
Because I knew her answer
She trusted and I ked me as a partner at work
Even f I somehow manage to make her my g rlfr end, she'd have never had any more feel ngs above that level
She I ked S on
Know ng so I f gured that it wouldn't be so bad to leave my unf n shed feel ng ns de of me unanswered

That s so called love by bra n
Know ng past and future you don't do anyth ng that s not go ng to work out for you
So are you happy for not feel ng sorrow ?
Venus
Yes l ght feel ngs leave l ght wounds
Deep feel ngs leave deeo wounds
Make sure that you don't get hurt
And that s why you don't feel sorrow
I am not sure what kind of feel ngs M ssel had toward S on but it was unl ke her it was deep
And I bet you were just watch ng

You suffocated your own feelngs as you never showed and let it out
If it were really deep feelngs, perhaps getting hurt deeply was the right thing to do Martie
Although you've lost your chance
A chance to fall for your feelngs doesn't come easily
Such an unexpected speech from an observer

Mar is my chance
I am not letting her go. If I am going to get hurt, I will get hurt properly.

If so,
Deep feelings leave deep wounds ....
I will finish you the way it should be, Kitty 101.

A person who s related to me
Am I want ng to conf rm that the reason that she was dragg ng my attent on was because of that? Because she has my DNA?
No
What I do want to know s
True face of my feel ngs
What do I want to conf rm
The d sappo ntment that I felt when I heard Mars death
The senat on that shook my bra n so hard that I couldn't get a hold of myself
The feel ngs

And now
I want to see
her face so that
I can be sure that
she is all r ght
That feel ng as
